## OBJECTIVE

---

My passion for learning new techniques and my intense desire to create have led me to a B.A. in Multimedia where I've specialized in web development, video game development and online user interaction. With my knowledge of both the programming and design side of web and video game development, I hope to find work in a related field where I will be able to expand and improve upon my current skill set, meet like-minded individuals, and most importantly have fun in the process!

## SKILL SET

---

### Software

Adobe Creative Suite, Microsoft Office Suite, Windows and Mac OS, Internet Explorer 6 and 7, Opera, Safari, Firefox, Filezilla, Eclipse, JGrasp, Valve Hammer Editor.

### Programming

PHP, MySQL, CSS, XHTML, XML, AJAX, JavaScript, Java, CPanel, PHPMyAdmin, Apache and FTP knowledge.

## EXPERIENCE

---

2007-2008

Lead Programmer and Designer

San Diego State University, Art Department

San Diego, California 92115

<http://art.sdsu.edu/>

Wrote an accessibility compliant frontend layout design using XHTML and CSS and a dynamically driven backend, including a custom-built Content Management System.

2005

Template Designer

Pine Creek Hosting Company

Created five web standards compliant templates using XHTML and CSS that would be easy to integrate with backend coding.

2004

Quotes Database System

<http://www.qdbs.org/>

Wrote a quotes database system for online conversations using XHTML and CSS for the frontend and PHP and MySQL for the backend. The project was later taken over by another developer.
